Assessor Comments	Final Stage Composite Flock Dispersal. Offering on behalf of Account , AND Teusner. This line represents 185 , July/August 2017 drop ewes. These ewe are good medium frame for type and present in store condition. The Teusner Family have been on Cashmore Park/Oaklea bloodlines for over 15 years and always buys in the top % of rams at the sale. Ewes are scanned annually and any dry ewes each year are removed. Ewes are January shorn and would benefit from have the wool removed and shown some fresh feed. Ewes have had a tougher winter/spring than normal, and with lambs been weaned off over the last 1/2 weeks are down on their usual condition. Shear , feed and join to the ram of choice late summer into Autumn. The Teusner flock often scans at over 150%. Proven breeders in the prime of their lives. Property has been sold/leased and these ewes are priced to sell.
