Vendor Bred	Yes
Stock History	Heifers all bred on Vendors breeder block in Croydon district in genuine breeder country. Due to unfortunate seasonal conditions on growing block (Doncaster) the trip to better feed for these heifers was delayed to July this year.
Lifetime Traceable	100% of cattle in this lot are Lifetime Traceable
Bloodlines	Heifers all out of Brahman & Charbray Cows by Brahman & Charbray Stud Bulls. A majority of these heifers show minimal hump due to Charbray infusion.
Grazing Conditions	Light yet Improving body of predominantly Buffel with presence of some bluegrass and native herbages after 32mm rain in early Nov and 50mm late Nov. Digestive systems have turned and these heifers are on the up ready to bound ahead on good feed. Returned same
Burr/Seed in Coat	No Burr or Seed of weeds declared noxious observed in the coats at assessment
HGP Status	The owner declares that the cattle have not been treated with HGP at any period of their lives
WHP/ESI	Cattle are within a Withholding Period or Export Slaughter Interval for: Baymec

Health Treatments	Drenched	05/12/2021	Baymec (Ivermectin)42days																														
Chemical Residue	Owner Declares Nil Residues.																																
J-BAS Score	6																																
Vendor Comments	Good line to handle in the paddock with bikes and dogs, have improved noticeably over the past 4 months and only selling to make room for weaners and younger cattle on the limited feed available.																																
Joining Details	Not Station Mated																																
Other Joining Details	Heifers were spayed by a well-known competent contractor in late 2020 at breeder block.																																
Any Access To Bulls or Stags?	To vendor's best knowledge, this lot has had no access to bulls or stags.

During individual assessment (crush-side) a large majority of the heifers were happy to stand without pressure, however when mouthng a higher percentage were noted to be uncomfortable with the close interaction. Heifers were fine in bigger yards in a mob and easy to count through gateway etc.	Yards	Crush	Paddock	Quiet: 140 head	Quiet: 114 head	Temperament not assessed in Paddock	Slightly Stirry: 8 head	Slightly Stirry: 30 head	Stirry: 4 head	Stirry: 8 head

Handled With	Aerial (Helicopters, gyro's and planes) , Bikes , Dogs																																
Assessor Comments	5 decks of spayed No.9 (98hd) & No.0 (54hd) Brahman and Charbray heifers on the up due to rain in early (32mm) and late (50mm) November and ready to surge ahead on good feed. The feed is green yet light which is providing these heifers a rising plane of nutrition although there is still plenty of compensatory gain to be had if going on to a volume of quality feed. Upon assessment the digestive tract of these heifers seems to be good with healthy stools noted. Due to unfortunate seasonal conditions at the vendors growing block, these heifers were held on the northern breeder block (which also experienced undesirable seasons) for longer than usual to ensure survival and were transported down on to the higher quality feed at "Doncaster" on July 10th (5 months ago). As noted in Dentition section, there are 37 x 3-4 Tooth's in this lot consisting of 30 x 3-4 Tooth's and 7 x breaking their 3rd Tooth. 115 head were 0-2 Tooth. All heifers treated with Ivermectin based product at assessment.																																
Assessor	Bo Scoble (Level 3 Accredited) Phone: 0417 671 589																																
Delivery Period	12/12/2021 to 16/12/2021 (5 days)
