Temperament	Yards	Crush	Paddock
	Quiet: 90 head	Quiet: 80 head Slightly Stirry: 10 head	Temperament not assessed in Paddock
	Very good temperament on inspection, swift gaited cattle appeared to be playing rather than flighty less than 5 animals appeared slightly stirry when held up or caught in head bail, no aggressive animals observed.		
Handled With	Bikes , On foot		
Assessor Comments	A very good quality run of steers suitable to background to feeder steers or grow out to bullocks, ideal for a wide array of southern markets. The cattle exhibit plenty of weight for age, bone and muscling ability. As indicated by video footage and photos there are 2 steers exhibiting long toes 2 steers have warts and there are 2 Brindle coloured steers due to a throw back, 1 steer observed to showing more than 40% Bos Indicus content again due to a throw back.
