Assessor Comments	Offering 55 Angus Cross Steers. These steers averaged 270kg live at assessment after a full overnight curfew. The steers are majority branded No.1 and No.2 with some older steers branded No.0. The older steers were mouthed with only 1 found to have two teeth emerged and 1 just cutting (photos attached). These cattle show good frame and have plenty of compensatory gain ready to go for the purchaser. These steers would suit a backgrounder operation and are going forward on the feed currently available from recent storms. Please note 2 sighted with light warts on the neck. Please note there are another three lots of cattle from the same vendor in the weaner and yearling sale.
