	These cattle flowed well through the yards when not over pressured. The steers are used to being race drafted and draw up the race well.		
Handled With	Aerial (Helicopters, gyro's and planes) , Bikes , On foot , Vehicles		
Assessor Comments	Offering Crossbred Steers. These steers averaged 272kg live at assessment after a full overnight curfew. The steers are majority branded No.1 with some younger steers branded No.2. The oldest looking steers were mouthed with all showing milk teeth. These cattle show good frame and have plenty of compensatory gain ready to go for the purchaser. These steers would suit a backgrounder operation and are going forward on the feed currently available from recent storms. Please note there are another three lots of cattle from the same vendor in the weaner and yearling sale.
