Assessor Comments	Offering 56 Angus Cross Heifers. These heifers averaged 270kg live at assessment after a full overnight curfew. These heifers are majority branded No.1 and No.2 with some older branded No.0. The oldest looking heifers were mouthed with 2 showing two teeth (photos attached). These cattle show good frame and have plenty of compensatory gain ready to go for the purchaser. These heifers would suit as either a replacement heifer for the breeder or as a backgrounder for the trader and are going forward on the feed currently available from recent storms. Please note 1 sighted with light warts on the neck. Buyers also please note there are another three lots of cattle from the same vendor in the weaner and yearling sale.
