Assessor Comments	Offering 94 Crossbred Heifers. These heifers averaged 257kg live at assessment after a full overnight curfew. The heifers are majority branded No.1 with some younger heifers branded No.2. The oldest looking heifers were mouthed with all showing milk teeth. These cattle show good frame and have plenty of compensatory gain ready to go for the purchaser. These heifers would suit as either a replacement heifer for the breeder or as a backgrounder for the trader and are going forward on the feed currently available from recent storms. Please note there are another three lots of cattle from the same vendor in the weaner and yearling sale.
