Assessor Comments	Offering 114 good quality crossbred steers. These steers averaged 333.6kg live at assessment. The steers are all branded No.0 and the biggest 19 were mouthed at assessment with only one found to have two teeth (please see photos). The steers present in light condition but plenty of frame and are really starting to power along with the recent green feed on offer. Buyers these steers will not disappoint with the Willsdown Pastoral cattle having a very good name for being, good doing cattle especially in feedlot situations. Please note at assessment the following was noted. Five were sighted with lumps on the neck from previous Botulism needles, 2 with a lightly weeping eye, 1 with an old blight scar and one steer with longer horns untipped. Also noted 3 steers sighted with slightly swollen purses but are soft to touch when checked.
