	Well handled & educated heifers that muster & walk in well. Brahman heifers that show normal flight zone and require caution if cornered or isolated they tend to fuss & become excited however when handled sensibly they are free flowing and calm when returned to the mob.					
Handled With	Bikes , Horses , On foot , Vehicles					
Assessor Comments	Good quality Brahman & Brahman cross #0 heifers - NSM, classed breeder replacements being sold due to the season. Large frame heifers with length & depth yet not carrying any excess condition so there should be significant compensatory weight gain achievable on good quality feed. They are suitable to join now. 51 milk tooth & 3 just cutting 2 teeth. (I missed 1 heifer) 1 heifer with a more defined hip/pelvic bone area - potentially emphasised being lighter in condition across her back - no noticeable visual ill effect (see the last 2 photos for clarity)
