	Majority of Heifers were easy to handle and process, with some becoming impatient and nervous under pressure in the crush. Heifers soon settled once back in the mob, and were great to walk around to video. Typical of weaners, some settling in appoun arrival of their new environment would be beneficial.		
Handled With	Bikes , Dogs , Horses , On foot , Vehicles		
Assessor Comments	Buyers, a great opportunity presents itself to purchase a group of 34 EU ACCREDITED Brahman infused Heifers. These Heifers show all signs to make great future breeders, with some heifers ready to join to the bull of your choice. Heifers would also make great backgrounders as they present in store condition and have been fully weaned and handled, therefore offering quick compensatory growth once arriving in their new environment. Sired by above average stud Brahman sires that have left plenty of bone and growth in this line. 7 of the bigger heifers were all mouthed solid milk tooth. Vendor can supply full breeding, age and previous weights on these females. Located 20 minutes North of the Warrego highway. Please see photos and video for further satisfaction.
