	All steers are typical pastoral bred northern cattle. I personally mustered these cattle myself and in the paddock they were exceptional. They walked out very nicely and caused no trouble in the paddock at all. In the yards however when pressured they can begin to stir up with a percentage becoming stirry. When left alone and unpressured these cattle are calm and easily handled. With confident handling these cattle are no trouble at all. Please contact myself or view videos for full satisfaction		
Handled With	Bikes , Dogs		
Assessor Comments	Buyers, here presents an opportunity to purchase a line of large frame steers with plenty of potential going forward. These steers have done exceptionally well with the mob averaging over 1.5kg per day. These steers have had all there shots and vaccinations and are going ahead very well. With the current rain around and the quality feed I believe these steers would be ideal to grow out to heavy feeder steers with good weight gains expected. Please note 2 steers appeared to have HGP ear marks from breeders property. 2 steers also had a small lump on their necks from injections. These will go away in time and are no detriment to the cattle. Please view photos and videos for full satisfaction of type and quality. A great opportunity to purchase a line of store steers that will power ahead on good feed.
