	All steers are typical pastoral bred northern cattle. I personally mustered these cattle myself and in the paddock they were exceptional. They walked out very nicely and caused no trouble in the paddock at all. In the yards however when pressured they can begin to stir up with a percentage becoming stirry. When left alone and unpressured these cattle are calm and easily handled. With confident handling these cattle are no trouble at all. Please contact myself or view videos for full satisfaction		
Handled With	Bikes , Dogs		
Assessor Comments	Buyers, here presents an opportunity to purchase a line of medium to large frame steers with plenty of potential going forward. These steers have done exceptionally well with the mob averaging over 1.5kg per day. These steers have had all there shots and vaccinations and are going ahead very well. With the current rain around and the quality feed I believe these steers would be ideal to grow out to heavy feeder steers with good weight gains expected. Please note 1 steer appeared to have HGP ear mark from breeders property. 1 steer also had a small lump on his neck from injections. This will go away in time and is of no detriment at all. There was also 1 entire male in the mob that can be castrated before delivery if required. Please view photos and video for full satisfaction of quality and type. A great opportunity to purchase a line of store steers that will power ahead on good feed.
