Assessor Comments	A good line of Hereford cross heifer yearlings 8-10 months of age and improving quickly on quality feed. These heifers were selectively purchased ex Regional livestock markets as young vealers. 3 heifers have been treated with Orbenin eye treatment at assessment and will be done again at delivery. These heifers are quiet and easy to handle, they have had all their animal health completed recently and are in perfect condition to power on and fatten into the strong trade or feedlot markets or retain as future breeders. Vendor will have another 5 lots of steers and heifers of similar weight in the same sale.
