These females show nice growth, weight for age, are still growing showing plenty of frame and bone. Heifers are perfect feeder types and will grow into great export cattle in the future. Heifers were preg tested 100% not detectable on the 1st of December, they were running with Angus & Wagyu Bulls from the 1st of September until last weeks preg testing date. 5 Heifers were mouthed & 2 had there 2 teeth, 4 Heifers Noticed with a slight old blue eye scar. A great opportunity to purchase some classy Heifers to take onto feed or breed with.
