For young unweaned they are a pleasure to handle, worked thru the race and crush with ease and were good to handle in the holding yards as well.

Assessor Comments

Hard to find Autumn drop weaner steers. This is the second draft of the steers, weighing from 238 to 300kgs. You can really see the breeding in these steers. They have some good shape and style in them already and should continue to power ahead on the right feed. The calves were left off mum after assessment and will be paddock weaned until delivery. They were a real pleasure to handle and assess and its a credit to the vendor on how they have been handled. They are out of genuine front paddock angus cows. Buy with confidence these cattle will perform.
