Quiet: 16 head Slightly Stirry: 3 head Stirry: 2 head	Quiet: 10 head Slightly Stirry: 6 head Stirry: 5 head	Temperament not assessed in Paddock

Good to handle providing you handle them with care and do not apply to much pressure in small yards. Once back in big yard the cows settled reasonably well.

Handled With	Bikes , Dogs , Horses , On foot , Vehicles
Assessor Comments	This deck load of PTIC cows and Cows & Calves are ideal cows to buy, calve down, wean a good cross bred calf and fatten the cow or rejoin. Of the 21 cows 19 are PTIC, 11HD are over 4 months & 8 are under 4 months, the 2 empties are the mothers of the two month old calves. They are generally large framed and will fatten to heavy weights, Those that have calves already are plainer in condition than those that haven't calved yet which is to be expected. The are 3 weaner sized heifer calves already and 2 younger month old calves. One Droughtmaster cow has vaccination lumps on n/s of her neck- not detrimental. Legs, hips, eyes all appeared sound at assessment. Here's a good opportunity to buy good styles of PTIC cows to trade forward with into 2022.
