Assessor Comments	A good line of EU accredited young Poll Hereford Cows. All cows have previously raised a calf and are just out of sink with the normal spring calving. Cows were run with the bulls from 13/1/21 till 28/2/21 with a few cows looking to be softening in the udder and could calf from this joining. However, the majority will be in calf to the later joining 4/7/21 till 31/8/21. Fit to load standards will apply to all animals. Cows present in great condition with the lighter cows being the Yellow tags which are only 3 years old. One cow is purchased from Nat Yak station and approved to be running on the EU PIC. 1 head noted with old blue eye scaring. Quality well-bred cows to keep as replacement breeders.
