Temperament

Yards	Crush	Paddock
Quiet: 10 head Slightly Stirry: 5 head	Quiet: 10 head Slightly Stirry: 5 head	Temperament not assessed in Paddock

Heifers worked yards well, the occasional heifer would become slightly agitated when pressure was applied but quickly calmed when it was removed. Again the occasional heifer became agitated on scales or in crush, but almost all of them walked out of crush. A few heifers did have some rush about them through a gate.

Handled With

Bikes , Dogs

Assessor Comments

Opportunity knocking!!! 2 lots of 15 PTIC F1 (Speckle Park, Angus) heifers being offered as a run out of the gate. Heifers are being offered for genuine sale due to the vendors property being sold. The heifers are in calf to the Wattle Grove Speckle Park sire 1.5-2 months in calf. The 30 heifers average 580kg at assessment ranging from 477kg to 684kg. These heifers so tremendous bone and depth & should become a real asset in any herd. Mouthed all 30 heifers at assessment there 8x4 tooth & 1 x 6 tooth heifers the remainder are 2 tooths. At delivery we will deliver as close to 50:50 of these 4 & 6 tooths. Please note 2 (of the 30) heifers observed with slight blue eye scarring, 1 cow at assessment had a weeping eye (flies & dust), there 4 fully black coloured heifers, refer to diagram provided in photos to explain, nothing considered detrimental.
