Handled With

Bikes , On foot , Vehicles

Assessor Comments

A line of Braham/Droughtmaster/Shorthorn cross heifers that have been PTIC to the Angus and Santa Gertrudis bulls. They are predominantly flat back heifers. Approximatley 10% are either tipped or horned with remainder being polled. They are bred from a Kimberly Shorthorn base with Brahman and Droughtmaster influences through bulls. These heifers present in a fresh healthy store to forward store condition, beginning to really jump ahead in condition with the favourable weather. These heifers are due to start calving early to mid March next year.
