These hfrs have previously been handled through the yards and crush and were good to handle. Although on assessment with calves being pulled off them, they did stir up when weighed and mouthed. Once back in the mob they settled. A couple of these hfrs do have a bit of run in them, but can be easily pulled up.

Assessor Comments	Nice line of Hereford heifers and calves. These heifers were purchased from Roma as preg tested heifers and the vendor has calved them down, and with more on the way has decided to sell them. They are in lighter condition for calving and are going forward no that they are on better feed since calving. They are of good framed heifers and doing an excellent job on the calves with plenty of milk. Please note the vendor has another 2 lots of heifers and calves in this sale; another 4 Xbred hfrs heifers and calves and 25 Angus heifers and calves. These calves have all been marked.
