Assessor Comments	Angus heifers and calves, Granite Ridge Blood that are young and excellent quality to take on as breeders. The vendor purchased them as Ptic to Hazeldean Angus bulls and these are the early calvers of the mob. They are a pleasure to handle at assessment and seem to be good mothers. They were kept in light condition to calve but are moving forward since being given better feed. They are milking well and given the right feed should continue to do so. We mouthed every 4 th hfr and they were all milk tooth. Please note that at assessment it was noted there was1 with a white udder and that there was a percentage of calves that have had that scours but seem to be right(refer photos) Please call for any further information.
