Generally a reasonably quiet mob of cattle, but not docile. Quite a few objected to being mouthed, but none were aggressive.

| Handled With | Bikes |
| Assessor Comments | A line of quality bred younger type mixed age cows, that have been blood-tested in calf, due to calve May/June. Not the traditional manual preg-test. A certificate is available. Please note: the testing vet is also the owner of the cattle. All the cows were mouthed - 1 was a 2 tooth, the balance full mouths, but on the younger side. One cow was just starting to show signs of losing her wing teeth. One cow also presenting with a small haematoma on the side of her belly, the size of a golf ball. It has previously been lanced and treated. These cows were purchased from the breeder out of Eden Valley as dry cows and were depastured to an Angus bull. Due to a change in circumstances, the vendor has reluctantly been forced to put them back on the market. The two dry cows have been removed. Please note: body truck and trailer access only. The vendor is prepared, at his own cost, to deliver to the Strathalbyn saleyards to meet a semi or b-double. |
