Excellent cattle to handle. They took direction very well and were very comfortable in the yards with humans in close proximity. They are used to being fed hay through winter and this makes them very quiet in the paddock also.

Assessor Comments	A small run of vendor bred heifers by MT Hunt and son. This is an impressive herd that grazes the high country above Second Valley and they need to perform to be on the property. . For those looking for quick finishing cattle from a fertile herd then here they are. One has a little white on the udder and one has several small warts the size of a 5 cent piece.
