Quiet: 27 head	Quiet: 15 head Slightly Stirry: 5 head Stirry: 7 head	Temperament not assessed in Paddock

Well handled cattle that walk well through the yards. The videos will show how quiet the cattle are. Well behaved in the race, majority stood well on platform, agitated when crushed for mouthing then quiet when let out.

Handled With	Bikes , Vehicles
Assessor Comments	A great line of vendor bred PTIC AA Hfrs forming the final stages of a dispersal. Majority are 2019 drops with an estimated 3 2020 drop and 3 2018 drop. The property where they are run is a large coastal property with difficult to muster hills in areas and this accounts for the few age differences, if the cattle are in certain sections of the property they cant be accessed at mustering and can end up in a different mob over time. Best described as medium frame Hfrs with a few large and small frames amongst them. The cattle are fit and healthy and easy too work in the yards. Noted 2 with white on or near udder and 1 with a very small white dot on eye. Great opportunity to secure some PTIC Hfrs presenting in good buckle and ready for a new owner. Please note the vendor has another 2 deck line of 45 PTIC Hfrs in the same sale.
