Working heifers through the yard generally were quiet. Putting through the crush several heifers got slightly stirry. Out in holding paddock we were able to walk around taking photos and video with ease.

Assessor Comments	A line of 16 Angus heifers brought in to back ground and put with a Angus bull to sell as PTIC. Heifers present in good medium to large frame in forward store condition. There are 4 heifers which where found to be not detecable at time of preg testing. They are still running with the Angus bull and will be avaliable for private sale. They are not part of this assessment. Please note these heifers had a 18 hour curfew before assessment. Same vendor has a line of steers in weaner & yearling sale today. The photos and video are of a complete mob of mix sexes and will appear on both assessment .
