Assessor Comments	A line of 40x40 Organic, EU and Greenhams Never ever accredited cows and calves. Cows are in fresh to forward condition and are doing a great job on their calves. Cows were bred on the vendors Northern property and have been brought down to their farm for sale over time. Approx a 3rd of the cows had been running with bulls up until 4 weeks ago the other cows haven't seen a bull since Preg-testing. We mouthed the 10 and 11 drop cows at assessment and they are sound. 1 cow has a slight scar on her eye, 3 calves were treated for pinkeye at assessment and a few of the calves have ringworm
