Assessor Comments	A well bred line of August /September 2021 drop, PARKDALE blood Merino wether lambs. These lambs are the top of the draft of the Winterslo wether lambs for this season, and with the magnificent season the Warren district is experiencing, are well grown for their age. They have been drenched with Triguard, and vaccinated with 6 in 1 on the day of assessment, and will be weaned on delivery. Bred with an emphasis on staple length, fat, and muscle, these lambs would be ideal to grow into trade lambs or to take further into export markets, with the added benefit of some income from wool along the way.
