Assessor Comments	This mob of store Wether lambs represents a good opportunity to secure some well bred light lambs that are ready to bounce ahead on good feed and the correct management. These lambs are fresh off the board a week prior to assessing them and have had the benefit of late of nice fresh feed following some decent late Spring rains. These lambs have scoured a bit from the green pick and have some dag on the backs of their legs. Odd lamb still with small shearing cuts healing up. These lambs are J/A drop, bare shorn and ideal to run across the stubbles or restocker wethers for pastoral area.
