JD Approved Vaccinates	Sheep are JD Approved Vaccinates. Vendor has been continuously vaccinating all retained lambs in the flock for 15 years		
Other Health Information	Only the ewe lambs are gudair vaccinated annually.		

Vendor Comments	Annual offering of our wether lambs. Lambs have performed well since weaning and not taken a step back. All our lambs are EID recorded for average daily weight gain.
-----------------	---

Assessor Comments	Top quality line of individually weighed weaned suckers. Suckers have been weighed at assessment 25-33.5kg with 100% assessed of the weight range total. 35% tail removed and retained. Suckers were weaned mid November with weaning weights recorded at weaning via EID. They have not taken a backward step in this time with an ADG of 220g/day. This line of lambs represents the third draft of the lambs being offered in this sale. These suckers are proven performers amongst previous purchasers and are bred from large frame ewes. They present in fresh store to forward store condition and even as a group. Lambs are also available c/kg for buyer assurance. See weighing instructions
