JD Approved Vaccinates	Sheep are JD Approved Vaccinates. Vendor has been continuously vaccinating all retained lambs in the flock for 15 years		
Other Health Information	Only the ewe lambs are gudair vaccinated annually.		
Vendor Comments	Annual offering of our wether lambs. Lambs have performed well since weaning and not taken a step back. All our lambs are EID recorded for average daily weight gain.		
Assessor Comments	Excellent quality line of individually weighed weaned suckers. Suckers have been weighed at assessment 38-42.5kg with 30% assessed of the weight range total. Suckers were weaned mid November with weaning weights recorded at weaning via EID. They have not taken a backward step in this time with an ADG of 260g/day. This line of lambs represents the second draft of the drop, with the lead sent to the trade and the remaining lambs offered in the same sale. They present even as a group and in slightly forward condition. These suckers are proven performers amongst previous purchasers and are bred from large frame ewes.1305 suckers offered in this weight range in 3 lots of 435 and will be delivered of equal quality via drafting gate. Lambs are also available c/kg for buyer assurance. See weighing instructions
