Assessor Comments	Outstanding opportunity to buy the tops of the Worthing East Chrome Maternal Composite Ewe lambs - rarely sold as they are normally retained internally. Only being offered due to high lambing percentages and a higher retention of adult sheep this year. Rams are selected for moderate birth weight, PWWT (top 5%), EMD, with only the most fertile ewes retained each year - ewe lambs must rear a lamb as a one year old to remain in the maternal flock. These ewe lambs were selected from one of the heaviest mobs and were 100% individually for buyers confidence, weighing 33kg+ to average 39.7kg (33-51kg) with a 20% tail removed. These lambs are normally joined in April and achieve up to 80% in lamb. Please note; vendor has another 2 lots of wethers in this sale for a total of 1,330 lambs being offered.
