Assessor Comments	A quality draft of Jul/Aug drop future breeders. All of these ewes are out of ewe lambs and have been bred by rams with low birthweights, positive fat & high muscle. Weaned 1 week prior to assessment on to fresh clover & rye grass, they have held in fresh condition & will continue to improve. OJD vaccinated, drenched at assessment & with a genetic profile to be desired, these lambs will go on to make outstanding future breeders!! They come with my highest recommendation!
