Assessor Comments	Offering a draft of Poll Dorset sired lambs ex medium to large frame WA bred Merino ewes. Lambs are later drop and with their breeding and given the opportunity should finish to heavy trade or export weights. Lambs have been recently weaned and were drenched and vaccinated at that time. Note, lambs were not crutched at time of assessment but certainly will be prior to delivery. They present in healthy store to forward condition and seem to have weaned well. Nicely weighted, young, healthy lambs with time on their side that should mature to heavy trade or export weights if given the chance (NOTE vendor offers 980 lambs over 2 lots this sale)
