JD Test	The flock has had a negative test for JD Abattoir 350, 25/02/2018		
Other JD Management	All replacement ewes bred by vendor are OJD vaccinated		
Assessor Comments	Offering an even line of nicely bred draft of composite lambs. Lambs present in fresh, forward store to forward condition and are mid July/August drop. Lambs have had booster vaccination and drench at weaning and will be crutched prior to delivery. The Cheviot Hills program typically supplies lambs into the trade, heavy trade & store markets, with proven past performance on property and for previous store buyers. Being July/August drop, lambs have plenty of time on their side and the breeding and capacity to finish to heavy trade and export weights (NOTE: vendor offers a further 1665 lambs this sale over 3 lots).
