Assessor Comments	Offering 470 lambs (as run out the gate of 940) of nicely bred composite lambs. Lambs present in mainly fresh, forward store condition and are mid July/August drop. Lambs have had booster vaccination and drench at weaning and will be crutched prior to delivery. Having had an overnight curfew, true weight reflected at assessment being 35.8kg. The Cheviot Hills program typically supplies lambs into the trade, heavy trade & store markets, with proven past performance on property and for previous store buyers. Being July/August drop, lambs have plenty of time on their side and the breeding and capacity to finish to heavy trade and export weights (NOTE: vendor offers a further 1665 lambs this sale over 3 lots).
