	All consigned sheep are from a flock that is free of Benign Footrot or Scald		
	Feet were inspected at assessment. Inspected 5 head (2%)		
	Comments: No lame sheep noted at assessment, but check of feet was done as matter of course. Vendor has been fastidious in sourcing foundation breeding ewes to stock property that were clean and from known breeders. Foot health is paramount in this operation.

Other JD Management	All replacements ewes have been OJD vaccinated for the past 5 years.		
Other Health Information	These ewe lambs will be Gudair vaccinated prior to delivery.		
Vendor Comments	Regretful sale of ewe lambs that were bred with intention to retain as future breeders.		
Joining Details	Not Station Mated		
Any Access To Rams or Stags?	To vendor's best knowledge, this lot has had no access to rams or stags.		
Assessor Comments	On offer are nicely presented draft of young, vendor bred Cashmore Oaklea composite ewe lambs. Representing the lead of the draft, these ewes were bred with every intention to retain within the operation as future breeders, but due to loss a block are now offered for sale. Presenting in fresh, store to forward store condition, lambs are a late, September/October drop, will be approved OJD vaccinates, and have had a recent drench & booster vaccination. The Sterling Pastoral operation sources top end Cashmore Oaklea genetics with particular focus on WEC, moderate adult weight, high growth and fertility. Dirty lambs will be crutched prior to delivery. Although it would be terrific for these ewe lambs to go on to be quality breeders, they also have the breeding to finish into heavy trade or export markets. An opportunity to acquire young ewe lambs with plenty of breeding. Reluctant sale. (NOTE: vendor also offers 375 PD & Comp X lambs this sale)
