	Quality Grades		Wrinkle Score	
	Excellent	50%	Plain	80%
	Very Good	50%	Light	20%
Assessor Comments	The McEwen Family take pride in their breeding and, in the lambs, they produce on offer for you. They have been using the Chrome Genetics for 10 years now, and they're extremely happy with the ewes they have bred over the 10 years. The McEwen family are particularly impressed with the high lambing percentage and high weaning weights while being easy lambers and only require a low level of husbandry throughout the year. These lambs are in very strong forward condition and at 43kg av are not far away from joinable weights giving you the opportunity to join them down the track. Since weaning, they have been on improved pastures of clovers and grasses and have done extremely well. All Ewe Lambs have been shorn had a B-12 Drench and back lined for your convenience and you can buy with confidence and peace of mind. Don't miss this chance to get your hands on a run of very good breeding lambs with genetics to back them up.			
Assessor	John Jolly (Level 3 Accredited)
