Assessor Comments	360 Jun/Jul 2021 drop, Poll Merino Ewe lambs.Weaned, Booster Vaccinated, Drenched, Shorn and backlined. Plain body sheep with clean points. All the hard work is done and are ready to turn out and grow out into great ewes. Trying to move while fresh before the summer feed dries. These are a nice line of lambs weaned well and weighed 29kg+ After visually drafting. They are good med/Large frame for age and muscled well. The vendor did trail fed grain after weaning to help with getting onto grain in the future. A small line of 65 was removed from bottom of this line before assesment.
