Bikes , Dogs , Horses , Vehicles

Assessor Comments

Buyers here is a very good quality line of well bred young Angus steers. These show excellent weight for age, length, bone and shape, all the attributes you would require for the domestic or export feeder markets. Their temperament is unquestioned and they have already had 30 days on a 30% grain ration so are all broken in to feed bunks. The vendor took advantage of others misfortune during the prolonged drought of 2019 and it has really given him the opportunity to hit the ground running and play in the high end Angus programs given the quality of the genetics he was able to access. Please also note 53 of these were treated with a Compudose 100 HGP on 15th June 2021. There are 2 in the lot that missed out on getting an HGP. There was no sign of any blue eye scarring at assessment and they appear to be fit and healthy and ready to perform. Buy em and try em, you'll be back for more.
