Assessor Comments	A great line of quality Brahman cross backgrounder steers that are healthy in the coat and ready to perform. These steers were bred at Longreach and were trucked to Warwick to background in the paddock due to unfavourable weather conditions at Logreach. The steers are located in a tick free zone and would require a shot of 3 germ blood if going back to ticky country. There are a percentage of steers in the mob with horns and some steers showing small amounts of regrowth. Majority of the mob are year branded number 1's with two head noted to be year branded 0's. A quality line of backgrounder steers that are ready to perform!
