Hfres were very good to handle. Moved through the yards and crush without too much prompting. 1 hfr became restless and fidgety when isolated on scales but settled quickly. 1 hfr would not settle on scales. Have been handled regularly by vendor.

Assessor Comments

Presenting a small line of well bred future breeders. The cattle carry good genetics and are by a high performing bull with excellent figures. Some of these heifers are still hanging onto their winter coat but I think due to the exceptionally mild, wet season being experienced in the district. They are still displaying good weight for age and offer several options moving forward. Some heifers have the odd wart on neck or face but are not that obvious. They weighed 293kg average after 2 hrs in yards with a range of 252 to 356kg. They are mostly medium frame and present as forward in condition. An attractive line to put away in this volatile market without having to pay for extra weight or a calf. Vendor also has an older lot in this sale.
