Assessor Comments	An outstanding line of 48 Angus Feeder Steers. They are out of a Talooby based cow herd, by the best of the Mundarra Angus bulls, that have been selected on their growth rates. These steers average 476kgs and have not had a set back since they hit the ground in July/August. These steers show great depth of body and are jumping ahead with the warmer weather. These steers have also had one Bovillis shot. The vendor is happy to have an extended delivery period if that helps over the Christmas/New Year break. These steers will not disappoint.
