Handled With	An excellent mob of steers to handle. Worked around yards with a minimum of fuss. Bikes , Dogs , Horses , On foot , Vehicles
Assessor Comments	A neat B Double load of EU feeder steers right in the dress circle. These steers have historically been sold through the CTLX Blue Ribbon Weaner sale where they have long been one of the feature lines. Due to a change in tact and calving date they are now being retained through to feeder weights. Have been grazing highly improved rye grass crops throughout spring and really have started to fly over the last couple of weeks as the weather has improved. As noted in the assessment they have been double vaccinated with Bovilis MH+IBR to suit most yard requirements. As the end of the year is fast approaching we have given an extended delivery period through until the 8th of January if you wished to stage these steers for induction over the holiday period. You will be hard pressed to find better load of feeder steers this week - moderate in weight and perfect in condition. Worthy of very close consideration.
