Possibly the quietest mob of cattle I have ever had the pleasure to prepare for sale. Walked quietly out of the crush into the cooler and promptly sat down to chew their cud! A credit to the manager.			
Handled With	Bikes , Dogs , On foot , Vehicles		

Assessor Comments	An excellent full three decks of EU accredited Angus feeders in the highest of quality brackets. As mentioned earlier in assessment principally bred via Karoo Angus sires over many years with some Millah Murrah bulls added recently. Absolutely dead quiet to handle and trained onto lick feeders these steers will walk right to the bunk, put their heads down
-------------------	---

and power on from there! Treated with their first Bovilis MH + IBR vaccination back in early November so ready to receive their second dose at any stage. Given the end of year fast approaching we have given an extended delivery period through until the 8th of January if you would like to stage these steers top induct over the holiday period. Take the time to consider closely, they don't come much better!
