Assessor Comments	An excellent b double load of angus steers, right in the slot, and ideal condition for feeders. Have grown out nicely over winter and spring and are really on the do now and cleaning up in the coat. They have been vaccinated with Bovillis MH + IBR on the 25/9 so are ready to go for the second dose upon induction. Please note the extended delivery period given to suit your induction schedule. If this needed to be varied happy to work around a delivery time. They are in a tight weight range from 475 to 530kg full.
