Cattle were good to handle in the yards. All drafted in a round yard prior to weighing. Odd steer became agitated in the crush.

Handled With Bikes , Dogs , Horses

Assessor Comments **\*\*BACKGROUNDERS LOOK ON\*\*** The lead draft of the Penfold Cattle, steers drafted on frame and weight. Averaging 257kg after an overnight curfew. Steers show good length and frame with a lot of compensatory weight gain left in the cattle. Steers have performed well through the spring and continuing to pack on the weight into summer. These steers are perfect for a producer with excess feed looking for a short-term trade. Steers are already acclimatised and 'on the do'. Buyers are presented with an opportunity to put together a line of 257 one-mark cattle (offered in 4 lots). Note: Odd steer with small amount of ring-worm of old tick scar, not considered detrimental.
