		Cattle were good to handle in the yards. All drafted in a round yard prior to weighing. Odd steer became agitated in the crush.	
Handled With	Bikes , Dogs , Horses		

Assessor Comments	**RE-STOCKERS LOOK ON** The main draft of the Penfold Cattle, steers are all of the younger cattle in the consignment with their lives ahead of them. Averaging 191kg after an overnight curfew. Steers show good potential with all the hard work being done. Steers have performed well through the spring and continuing to pack on the weight into summer. These steers are perfect for a producer with excess feed looking for some lower money cattle to grow out. Steers are already acclimatised and 'on the do'. Buyers are presented with an opportunity to put together a line of 257 one-mark cattle (offered in 4 lots). Note: Odd steer with small amount of ring-worm of old tick scar, not considered detrimental.
