Assessor Comments	Quality line of Hereford steers. These steers were weighed in a tight weight braket from 381-435kg with one weighing. 450kg at assessment. The Yaven steers are always well sort after and known for their doing ability. Steers have performed well over the spring and will continue to do so given the right opportunites, these large framed steers are a bullock fatters dream or could be taken onto heiver feeder weights. Please note most steers have been dehorned with some showing small re growth (small amout polled/scurred). Yaven source the lead sires targeting good 400/600 day growth figures.
