	Steers flowed through the yards very well with no stress. 4 steers became slightly agitated in the crush while being weighed but returned to normal as soon as they were back with the mob.

Assessor Comments	A lovely line of weaned Autumn Calves A wonderful opportunity to secure 59 weaned vendor bred angus steers. Steers were yard weaned on the 15th of August for 5 days and returned to the paddock where they have settled and returned back to a positive weight gain. Vendor has been using top end Banquet genetics for the past 20 years. These steers will go on to be very good feeder steers or make outstanding heavy boned Angus Bullocks. Tight weighing pattern from 300-367kg, 2 steers have a small area of white on bellies behind navel. Steers that carry all the genetics and numbers to go on to become outstanding cattle. Please not 24 younger steers are in same sale 249-292kg
