Assessor Comments	A lovely line of weaned Autumn Calves A wonderful opportunity to secure 24 weaned vendor bred angus steers. Steers were yard weaned on the 15th of August for 5 days and returned to the paddock where they have settled and returned back to a positive weight gain. Vendor has been using top end Banquet genetics for the past 20 years. These steers will go on to be very good feeder steers or make outstanding heavy boned Angus Bullocks. Tight weighing pattern from 249-292kg, Please note 1 steer has a small area of white behind navel. Steers that carry all the genetics and numbers to go on to become outstanding cattle.
